An Alumna's Personal Journey in Biotechnology

Mitali Singh, M.S.

Technical Applications Scientist
Illumina

Wednesday, April 28, 2021

4:00 – 5:00 pm

Zoom [Registration](#)

by 04/28 with USC email address

Mitali Singh is a motivated and skilled Biotechnology professional adept in analyzing clinical datasets and troubleshooting clinical experiments. Mitali graduated from the University of California, Davis with a bachelor's degree in Biotechnology. She received her master's degree from Keck School of Medicine of USC in Translational Biotechnology.

After graduating from USC, Mitali worked as a Research Specialist in Dr. David Cobrinik's laboratory at Children's Hospital Los Angeles. She worked as a part of a research team developing a framework for understanding the developmental trajectory of human retina and progression of retinoblastoma in humans and mouse.

Mitali is currently a Technical Applications Scientist at Illumina <https://www.illumina.com/> in San Diego. In her role, she supports scientists from across the world. She diagnoses issues with their research experiments associated with Illumina products and applications and provides technical advice and troubleshooting assistance focusing on Illumina's Sequencing product portfolio.
